The Mandate & Objectives of the Guarantee & Inspection Service

The AWMAC GIS program, through its members in good standing, offers a two year AWMAC Guarantee Certificate on projects which have the recommended GIS wording specified in the tender documents.

GIS Mandate

In order to ensure that the quality of materials and workmanship of the architectural woodwork specified are in compliance with the current AWMAC Architectural Woodwork Standards (AWS), the AWMAC Guarantee and Inspection Service program (GIS) must be specified and be considered an integral component of the scope of work.

GIS Objective

The objectives of the Guarantee and Inspection Service are:

1. To assist the design authority in achieving “good architectural woodwork”.
2. To offer the owner, customer, design authority and woodwork contractor an assurance that strict monitoring of the architectural woodwork requirements on a given project will meet the specified AWMAC standards.
