Installer Membership Criteria

Membership in AWMAC Ontario Chapter carries the following obligations and responsibilities:

1. Each applicant must at the time of application for membership, have been in business for a period of five (5) years, or have demonstrated experience in the industry, to the satisfaction of the Board of Directors.
2. Each Applicant will serve a probationary period of 2 years.
3. Each Applicant has 45 days from membership acceptance to successfully complete the Installers Standards Questionnaire (ISQ) before membership will be finalized and company will be considered Member in Good Standing. Company name will then be added to the AWMAC Ontario website. If the ISQ is not completed in forty five (45) days, then the application will be rescinded and membership denied, there will be no refund of dues paid and the applicant can only re-apply after a two (2) year period.
4. Invoicing for membership is conducted on an annual basis. Failure to submit payment for membership within the time allotted will nullify your membership and your name will be removed from the roster and website.

5. AWMAC Ontario Chapter supports and enforces its GIS and IS programs both provincially and nationally. All installer members are required to support and comply with both of these programs. As an AWMAC Ontario Chapter member, if you are installing architectural woodwork on a project which specifies either of these programs, as part of the millwork tender, you are obligated to:
 - a) *Notify the GIS Office if you are the successful installer awarded an installation contract on a GIS project;*
 - b) *Provide the GIS Office with hard copies of all requisite documentation in a timely manner;*
 - c) *Install millwork to AWMAC standards unless specifications contradict the standards. Specifications over-rule AWMAC standards, however, every effort should be made to make the owner/architect aware of the conflict between their specification and AWMAC standards as early on as possible;*
 - d) *Rectify all deficiencies set forth in AWMAC inspection reports in a timely manner and advise the manufacturer and GIS Office in writing of the completion of the rectifications setting out each noted deficiency individually and the manner in which it was rectified;*
 - e) *Submit any comments or conflicts regarding an inspection report to the manufacturer and GIS Office in writing within 3 business days of receipt of the report by fax or email.*
 - f) *Must abide by current AWMAC GIS Policies & Procedures (refer to GIS P&P Manual).*
6. Membership will be terminated should a member company go bankrupt or into receivership.
7. Membership will be terminated if the Board of Directors deems a written complaint from an owner, architect or corporate member justifiable. Any reasonable inspection costs incurred as a result of the justifiable complaint will be borne by the applicant after full discussion between AWMAC Ontario Chapter and the applicant, prior to the inspection.
8. AWMAC Ontario Chapter members are provided with two written notices of non-compliance. Should the member not respond and/or rectify the issue of non-compliance within the allotted time period contained in the notice, the defaulting member will be given a final written warning advising of the date of revocation of their membership failing proper rectification.
9. An applicant is free to reapply for membership two (2) years after the date of membership denial or termination.

Code of Business Conduct

As a member of the Architectural Woodwork Manufacturers Association – Ontario Chapter, this firm subscribes to the following code of business conduct:

We believe that all our business transactions should be based upon that which is morally right, rather than upon that which may be legally enforced.

We will support the financial and moral objectives of the Association and participate in all Association activities, in order to foster common goals for the betterment of the entire industry.

We will abide by all bylaws and regulations passed by the Board of Directors in accordance with the Constitution of the Association.

We recognize the AWMAC Quality Standards for Architectural Woodwork as the industry standard, and will adhere to specifications in the manufacture of their products and to avoid the substitution of inferior quality products, and we agree to support and maintain this standard.

We will maintain the highest integrity and strive for excellence in the quality of our work, our relationship with our employees, clients, and colleagues.

We will neither solicit employees, nor procure contracts surreptitiously from our competitors.

We will promote the products and skills of our company, rather than disparage our competitors.
