

THE BENCHMARK

Honouring the finest in quality and service in the architectural woodwork industry

24th ANNUAL AWARDS OF EXCELLENCE EDITION | FALL 2014

INSIDE THIS EDITION

FROM THE EXECUTIVE DIRECTOR

Another Awards of Excellence is behind us and what an outstanding event it was. Thirty seven projects were submitted by many of our manufacturer members showcasing libraries, hospitals, hotels, private residences and much more. It was wonderful to see this year's amazing body of work exhibited against the backdrop of Coal harbour. This event is a tribute to the generous and ongoing support of our sponsors. Thank you.

Moira Rowan

FROM THE PRESIDENT

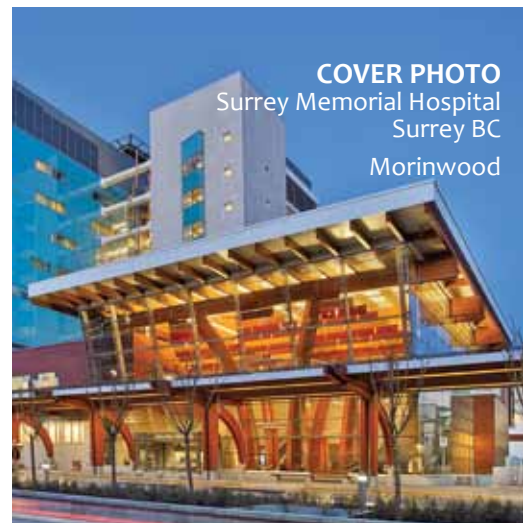

I would like to congratulate the member companies that have put forward projects in this year's Awards program, whether they were the winning finalist or a contending participant. This year's extraordinary projects showcased manufacturers supplying quality workmanship while exceeding standards and working within the criteria and vision set by the design community.

I would like to thank the AWMAC staff, Moira Rowan, Lezelle Bredenkamp, Glenda Harskamp, and Kate Harrison for all the hours and excellent planning to organize this successful event. It is truly to the association's advantage to have an excellent staff to manage all the programs that AWMAC BC has committed to.

Now it's time to think about next year's projects.....

Rudy Bardeck

More work space: **Selekta Pro 2000**

Making way in the office: the incredibly shallow single-pivot hinge gives office cabinet doors an opening angle of up to 270° – leaving them flat against the sides. Like this, files and pull-outs are in easy reach all the time. But with no open doors in the way.

IT'S NOT A **SPORTS CAR...**

BUT IT'S ENGINEERED LIKE ONE

It takes exceptional design and engineering to win the honor and recognition that is **TIOMOS**. But don't let its good looks fool you. Under the hood the new kinematics work with precision and the integrated adjustable Soft-close handles like a dream. Quick response and pinpoint 3D adjustment with worm gear accuracy gives **TIOMOS** the racer's edge. Try one today.
